Ginbot 7 deceived the people by Treacherous and fictitious unity. The host of this video is professor Musse Tegegn himself. The main points are:- [EPPF](#) has not unified with Ginbot 7, Such forcing of Shabia to unify [EPPF](#) with other fronts is one of the reasons that makes [EPPF](#) to leave Eritrea. Since 2008 [EPPF](#) is struggling in Ethiopia not Eritrea. [EPPF](#) is struggling in the righteous way and the endurance of the fighters are getting higher and higher. Now even those who were criticizing [EPPF](#) are fabricating that they make alliance with [EPPF](#). Due to the Eritrean regime can't do anything even for its own people [EPPF](#) don't expect the freedom of Ethiopia will be through Eritrea. Shabia sold some freedom fighters of [EPPF](#) to the enemy when [EPPF](#) was in Eritrea. Furthermore, the professor describes about the former pleased unifications which balkanized by Shabia itself. EPPF communique 2008.03 Rejecting the Amnesty General declared TPLF regime in Ethiopia

EPPF Rejects the so-called "Amnesty General" declared by the Ethiopian regime in Addis Ababa on 11th-hour of its existence on July 20, 2018.

EPPF will continue its struggle up unto the demise and eradication of ethnocentrism and apartheid from Ethiopia!

EPPF the last twenty years has been fighting to eradicate from Ethiopia-famine, mass exile, land grabbing, wanton killing, disease, Ethnic clashes, media censoring, press sabotaging, and the totality of 24 plagues that destroyed Ethiopia today.

EPPF from 1998-2008 has struggled to make Eritrea its basis. The terrorist regime of Eritrea making a secret strategic alliance with the TPLF regime in Ethiopia has committed a heinous crime against our front. By obstructing the struggle of

EPPF has proved to be an ally of TPLF regime in Ethiopia. **EPPF** leaving Eritrea for good has continued its struggle inside Ethiopia supported by other friendly nations.

Today, the new Premier Abiy regime and its empty promises have served TPLF to fulfil its objectives. TPLF minority regime demonstrating a symbolic exchange without bringing any systemic structural lasting change in Ethiopia.

In Ethiopia, the TPLF established politics of hate is destroying the lives of many innocent citizens in different Bantustan regions established in the last 27 years.

TPLF regime has been naming the true liberators wrongly as "terrorist" movements. Since June 2006 **EPPF** has been named by such fake denomination to this day.. However, **EPPF** is struggling for the true liberation of Ethiopia.

EPPF fully rejects the recent blind amnesty of July 23, 2018 N° 1096/2010 declared by the regime in its 11th hour of existence.

EPPF works in Ethiopia to bring the following seven basic systemic changes: -

I have explained my argument on the debate, I have said that: - We need a countrywide revolution to overthrow the racist regime because the conspiracy of the racist woyane regime makes us not feel the wound of our brothers, but the wounds of our brothers are our pain. The brutal regime is plaguing the whole nation, not only some provinces. We have protested the regime for several years, but the atrocities are increasing, just only by the lack of our unity. We can mention the uprising of 2005 for this, we have lost several

of our brothers and sisters but still, the butcher regime is on the power. We are the bravest people in Africa, but we still can't remove minorities because we don't have unity. All our protest and uprisings are separated, we are watching the Addis Ababa protest alone then the protest of Oromia alone then the protest of Amhara alone, none of them can be fruitful, just by the lack of unity. Scientifically, any regime can't resist the protest of 3.5% - 5% of the population but our racist regime is still in power just by the lack of our unity.

paternalism. The system in the country is mainly led by men, laws are made and enforced by men which is challenging to get a result from. Women didn't have the opportunity necessary to build and develop themselves. The lack of women development limits their empowerment and contribution to further minimize the gender gap. I believe it is backwardness to see such a big gender gap in this era. Ethiopian women are victims everywhere in the country. The women of Ethiopia have been abused by the men for more than 3 thousands of years but the racist regime makes it worse. In this civilized era more than 70% of Ethiopian women are victims of men. The regime has failed to give protection and opportunities for women. Those few who get the opportunity are not more than for propaganda use of the evildoer regime. We don't have to expect coop only from the Generals. For example if we see 1975 coup in Ethiopia it was only by middle level military officials but it was successful. Furthermore, there is power and race conflict between the military officials of the regime. So, it may give the army to convert.

But when we see the educational level our military officers including Military chief General Samora, they all are illiterate. In the war against Eritrea we have lost more than 70,000 lives because of these illiterate officers. So, the recent appointment and award just to give recognition for what they have done against unarmed protesters. The regime is under stress due to the public protest and internal conflicts. Thus, they are just searching for a way to get relief from the pleasure. They used to tell us they have no political detainee, most of the politicians are behind the bar though. The regime is using the anti-terrorism proclamation to stifle the people. Therefore, without removing the political organization from the list of terrorist organization, it couldn't be a readjustment, It is just pardoning not giving guarantee for citizens to enjoy the political right. The people are demanding much more from this. The international media are who change the real image, it could be intentionally, but they have reported it as readjustment, but the regime is still stifling the people by the anti-terrorism proclamation.

This is the common drama of the evildoer regime. For the past 27 years the regime used to detain some Authorities to distract protest but none of them were convicted or reshuffle the cabinet by the name of public request. Thousands of protesters were killed by the brutal security forces of the regime during the recent unrest. As we have discussed earlier the reform is only to deceive the people and to distract the urisings. Therefore, the PM is going in the common rhythm of the regime. During the Cold War era both world powers used to compete to occupy countries ideologically. They used to mainly focus on the interest of their own states and don't mind much about the impact of their actions in a given country and its citizens. They are doing the same thing now also, We can take Syria as a current example for this. So their interest may have hard consequences for Ethiopia as well. It can weaken the liberation movement of the people but they only care about their trade competition with China, but not the life of innocent Ethiopians. Since the Obama Era US government is cooperating with the killer regime just because of the anti-terrorism cooperation of the two governments but being an ally in anti terrorism is not a guaranty to kill innocent civilians like the terrorist do.

Oppose Tedros Adhanom candidacy for director-general of WHO. He is a member of butcher regime of TPLF that ruling Ethiopia for the last 26 years, in 2008, under his watch at the federal ministry of health (2005-2012) there was a major cholera outbreak in Ethiopia Oromia region, the federal ministry of Health was fraught with mismanagement and gross.
